Dear Mr. Young:

On February 4, 2010, a representative of the U. S. Environmental Protection Agency (EPA) inspected your facility. The inspection was conducted under the authority of Section 3007 of the Resource Conservation and Recovery Act (RCRA).

A Notice of Violation (NOV) was issued to your company during the inspection. I have reviewed your February 18, 2010, response to the NOV and determined that it adequately addresses the violations listed in the NOV. I have also reviewed your November 1, 2010, response to the RCRA Section 3007 information request issued to you by the EPA on September 10, 2010. No further submittals are required at this time. Please note that EPA reserves its right to pursue appropriate enforcement actions, including penalties, for violations discovered as a result of this inspection and information request, regardless of whether the violations were subsequently corrected.

I would like to remind you that your facility is responsible for maintaining compliance with all applicable hazardous waste regulations. If there are any questions regarding this matter, please contact me at (913) 551-7621 or buckner.edwin@epa.gov.
